Eating Places Close Doors

For one cause or another, eating places in Belle Glade are closing their places of business and as a result the finding of eats is becoming a problem for those who must or choose to dine out.

The past week the Bayfield restaurant and Johnnie's Best in Town cafe and the Texaco cafe, all closed their doors for the sum.

John Michael, who has operated a cafe here since 1933 in a time has closed his place of business about three times for a short period. Mr. Michael is planning on a visit with friends in the Carolinas and then will visit in Chicago and Seattle, Washington, returning here around October 1.

ancient gain as an acre of lillies, if given the same attention and care as given to other muck land crops, for muck land is essential for the growing of lillies.

Lillies are subjected to the same disease and parasite enemies as are beans, eggplants and peppers and must be treated with the same insecticide remedies, otherwise the blooms and bulbs are easy to grow with proper fertilization.

Prior to the war Japan and Holland grew and provided the millions of bulbs planted in fields and hot houses in the U. S. lillie growing sections, largely located in California, Oregon and some north central states.

In the Lake Placid section of Florida an ideal lillie growing section has been found and established with growers there now having over 100 acres the past season.

The Hendry's, father and son, had 10 acres out this season and will plant increased acreage next year. The Florida field is wide open and sale of both flowers and bulbs have ready sale at good prices and that is a reason the desired Glades farmers to get interested in the deal. Hendry's, from his own breeding processes, is the celebrated and famed Crook's, which are raised extensively in Louisiana and are so popular in the southern states.

Speaking of the method of cultivation Mr. Hendry cites the following rules: Say ten days

BIBLE QUESTIONS
ANSWERED BY THE
VOICE OF PROPHECY
INTERNATIONAL BIBLE SEMINAR

Question—Is it really important to us today whether Christ did or did not rise from the dead?

Answer—Most important. "For if the dead rise not, then is Christ raised; and if Christ be not raised, your faith is vain; ye are yet in your sins. Then they also which have fallen asleep in Christ are perished." 1 Corinthians 15:16-18.

Q.—Didn't God give this earth to Satan after He made it?

A.—Let us read Psalm 115:16: "The heaven, even the heaven, are the Lord's; but the earth hath He given to the children of men."

Q.—I believe that everything in the Bible is literal. Am I right?

A.—Apparently not, for we read in Habakkuk 2:11: "For the stone shall cry out of the wall, and the beam out of the timber shall answer it." This clearly is figurative language, for a stone or piece of timber does not actually cry or speak. Figurative language and prophetic symbols are often used by Bible writers.

Q.—How could the thief on the cross be saved and go to Paradise when he was never baptized or anything?

A.—We quote Romans 4:5: "But to him that worketh not, but believeth on Him that justifieth the ungodly, his faith is counted for righteousness." Christ's promise of righteousness, which included baptism, was imparted (or counted) to this believer. "For by grace ye are saved through faith; and that not of yourselves: it is the gift of God; not of works, lest any man should boast." Ephesians 2:8, 9.

Q.—What does it mean in Daniel 9:24 where it says, "To make an end of sin?" Who does this?

A.—Is not Hebrews 9:28 a good explanation? "For Christ must be offered once for the redemption of the world." But now we see in the end of the world has He appeared to end sin by the merit of His blood. And Romans 8:3: "For what the law could not do, in that it was weak through the flesh, God sending His Own Son in the likeness of sinful flesh, and for sin, condemned sin in the flesh."

brance for their outstanding deed.

It is very doubtful if any other town in Florida is more loyal to its schools than just Belle Glade. The parents, clubs and individuals certainly left nothing undone to honor the seniors and to see that they received appropriate honors at the closing of their eventful and important high school life. Each year it seems that particular class could hardly be surpassed in attainment and good looks, but yet at the next commencement there comes along fully as talented and attractive a group as the year preceding. They boys and girls of our land are its salvation for the future.

There seems to be quite an exodus of citizens from the city taking place after the seasons. Well, Ted's my man and I will stick with him the rest of the

summer faces us to endure. These people are seeking recreation or laboring in other vineyards of production in various sections, but, when they get back in the fall they will be ready for another bustling season of crop production.

When I secured the story of the sale of the Tedder hotel from Judge Tedder I asked him what his plans for the future were to be? He replied "Well, I came here in 1923 and when I am finally carried out to live little 630 plat it will be from the Glades, the only place to live and die. I've been a farmer, an employee at the Experimental Station, a hotel man, a member of the city commission, and a police court Justice, which represents a pretty active life for one man," I asked Mrs. Tedder what she was going to do and her reply was, "Well, Ted's my man and I will stick with him the rest of the

journey."

I would seem a bit unnatural not to see Rev. J. O. Jameson preaching about the streets, working in his church and performing ministerial duties and taking part in civic affairs. Guess Bishop Arthur Moore, assisting bishop, must have had in his mind that Jay was doing a good job here that ought not to be interrupted so he sent him back to his old parish to function as he well knows how to do in this community. Welcome back, dominie.

cedure continue until each man had five of these curious cards, before him all continuing to disagree as each received an additional card.

Then the beneficiary of the charity would take all of the accumulated money as practically

every time this routine was repeated the beneficiary's cards would have more value than each of the contributors'.

The beneficiary was overcome with emotion many times during the proceedings at the generosity of the contributors and it was necessary for him to take stimulants to regain his composure. Finally he had partaken of so much stimulant that it had the opposite effect from that intended and he lost all composure and had to be assisted home by some of the generous contributors.

Those who attended were Mr. Bagister, Sonny Martin, Frank Ball, Clyde Doolittle, Frank Dooley, Tommy Weathers, Hubie Chambliss, I. E. Hamilton, E. A. McCabe, C. W. McDonald, Buzz Granger, John Harris, S. A. Tedder, Judge Tedder, Paul and Alvin Kirehman, H. C. Warthen, Prof. Speer, "Red" Mounts, Bay Ashley, Mr. Jackson of Clewis-ton and M. M. Sabiston.

These men can tell you why
the 7TH WAR LOAN is the BIGGEST yet!

YOU ARE being asked to lend more money than ever before—in the 7th War Loan.

These men can tell you why. They can tell you of giant ships ready to slide down the ways this year. They can tell you of a whole new air force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too.

They're the men with twisted, crippled limbs . . . with clever iron hooks instead of hands. The blind men . . . the men with scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds.

They can show us, clearly, how small is any sacrifice we make in lending money.

If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!
